Senator Frau Marianne Prantl & Dr. . Somweber*

**(IIMSAM Headquarters, New York, 8<sup>TH</sup> October 2010)** To realise its ambition of world free of malnutrition through Spirulina, the special emissary of the Secretary General of IIMSAM **H.E. Ambassador Ali Gulaid Senior Policy Adviser for Institutional Development of the organisation** visited Tyrol/Austria to espouse the cause of IIMSAM and to support the organisation's mandate to make Spirulina a key-driver to eradicate malnutrition, achieve food security and bridge the health divide with a special priority for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States. In order to secure the United Nations Millennium Development Goals. IIMSAM shall be establishing cooperation agreements to establish a branch of IIMSAM in Austria with the special focus on humanitarian projects in Somalia. Preliminary discussions took place with official representatives of the Austrian Government Senators, Frau Marianne Prantl, Martin Tonko, PhD, Systemic Coach & Consultant, Board of Directors, Austrian Senate of Economics and. Dr. Somweber. Austrian Senate of Economics.

**Senator, Dr. Martin Tonko Stated:** *“Africa is a rising continent with huge potentials for the future and it is a big matter of concern for us to serve the people on their way towards a peaceful, humanitarian and sustainable development. “*

Amb. Gulaid urged the Senate Members to help mainstream the use of Spirulina across the world. Spirulina was declared by the *United Nations World Food Conference of 1974 as the best food for the future* holds tremendous potential to secure the UN MDGs for the peoples of the world.

Delivering Statement at the UN CSD Conference /UN Hqtrs in N.Y.

**H.E. Ambassador Remigio M. Mardona, the Secretary General of IIMSAM stated-** *I take this opportunity to congratulate the Austrian Senate for their initiative to help the cause of IIMSAM. At a time when the global food crisis has affected over a billion people and has left millions on the threshold of death, the very initiative is worthy of emulation by other Member states of the United Nations. Austria would play a pivotal role to spread the benefits of phycology and algal biotechnology for the betterment of the humankind. Together we can and together we shall. I have no doubt that once actuated, the cooperation of IIMSAM with Austria shall not only help establish lasting capacities and capabilities at the grassroots but would also help enrich human capital across the world.*
